DETAILED ACTION

Drawings

1. The drawings filed on 10/5/03 have been accepted.

Claim Objections

2. Claim 12 is objected to because of the following informalities: claim 12, line 1, "clam 10" should be changed to --claim 10--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - a. Claim 1, lines 12-13, has no antecedent basis for "said first fragment" and "second fragment".
 - b. Claim 2, claim 3, claim 7 and claim 8, line 1, have no antecedent basis for "said image fragments".
 - c. Claim 2 and 7-8, is not clear, what "digital video stream" does applicant means here? from "first moment of time" or "second moment of time"?

- d. Claims 4-6, are "apparatus claims" which depend on method claim 1; however, there is no relationship between the elements of apparatus claims with respect to the steps in method claim. It is suggested claims 4-6 should be rewritten in independent form.
- e. Claims 9-11 has the same problem as of claims 4-6 above.
- f. Claim 12, line 1 is confused; what does applicant means by "Apparatus of claim 9 or clam[claim] 10 further implementing method of claim 10"?
- g. Claim 13, line 2 has no antecedent basis for "micromechanical or micro electromechanical elements". In addition, there is no connection between claims 13 and claim 1.
- h. Claim 14 has similar problem as claim 13.
- i. Claim 15 depends on claim 6 and disclose "a second method for measuring deformation of plurality of microcantilevers", thus, the claim fails to further limit the subject matter of claim 6.
- j. Claims 16 and 19-20 disclose an apparatus claim which depends on claim 13; however, there is no connection between claims 16 and 13.
- k. Claims 17-18 have the same problem as in claim 15 which discloses two methods in one claim.

Response to Arguments

5. Applicant's arguments filed 8/21/07 have been fully considered but they are not persuasive. Applicant's amendment to the claims; however, there are still many 112 problems have not been corrected and need to be corrected as mentioned above.

Allowable Subject Matter

6. Claims 1-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
